Are you worried about managing your weight while pregnant? Want advice about eating on the go, quick fix meals, or handling pregnancy cravings and symptoms? Or do you simply want to know which foods promote your baby's growth and development and which foods you should avoid?

Through our Nutrition in Pregnancy course, you will learn how to safely fuel your body and grow a healthy baby! You will leave the class with a better understanding of the importance of food during pregnancy, as well as tips and recipes to make your nutrition a productive part of your health plan.

This class is open to the general public and to women in all stages of pregnancy or pregnancy-planning.
